## Self-Gov - Outfitters and Guides

### Outfitters & Guides Programs

---

**Description:**

To regulate the outfitting and guiding industry for the explicit purpose of safeguarding the health, safety, and welfare of the public. The results of these efforts help to promote awareness of recreation and tourism in Idaho, and also assist with conservation efforts to preserve the state's fish, wildlife, and natural resources.

**Major Functions and Targeted Performance Standard(s) for Each Function:**

1. Analyze applications and qualify potential licensees.
  - A. Complete applications are to be processed within seven (7) days.

#### Program Results and Effect:

Licensing of qualified individuals to provide outfitter and guide services to the public is the Board's primary concern. Board staff routinely tries to process complete applications for initial license issuance or renewal within seven (7) days. The office processed over 2,700 licenses in fiscal 1997. The Board's education/information program has progressed very satisfactorily over the last four years. Public presentations, agency and industry training seminars, informational brochures, and media efforts have steadily increased and improved during this period. Enforcement of outfitter and guide laws continues to demand increasing amounts of staff time and resources. Our revised approach to obtain compliance with the law through education rather than rigorous enforcement actions has met with positive results and strong approval from within and outside the industry. Our ultimate goal and responsibility is to protect the public health, safety, and welfare, and assist with the proper regulation and use of the environment and natural resources of the State of Idaho.
